SCABIOSA IMPERIAL GIANTS

Blue Moon—Outstanding 1939 Novelty

Blue Moon is a distinctly new cut-flower type. The plant is upright in habit with extremely long 27" heavy wiry stems, bearing aloft the exquisitely beautiful deep lavender-blue flowers of great size and depth, growing $2\frac{3}{4}$ " across and 2" to $2\frac{3}{8}$ " in depth. New in habit of growth, new shape, new size, new color. Absolutely the finest Scabiosa development to date.

SCABIOSA — BLUE MOON

SCABIOSA IMPERIAL GIANTS BLUE MOON

We have photographed for you this fine "streamlined" plant in order that you may visualize the height: full 42" tall with long, heavy, wiry 27" stems which bear proudly aloft the unusually large, beautifully shaped, luscious lavender-blue flowers. The pincushion type has entirely disappeared in this new development, the flowers being composed of broad, heavy, wavy petals in complete doubleness. When a flower of so much perfection appears, no one can afford to miss the pleasure of growing a few plants. Pkt. 5c.

BEAUTIFUL AND POPULAR SCABIOSA **Splendid Cut Flower**

Among the PARK favorites, the new and lovely SWEET SCABIOSA stands high. The plants grow 2½'-3' tall and become a waving mass of exquisite flowers, borne aloft on long strong stems and exhibiting a great diversity of colors if planted in mixture; or one may have a fine bed of the lovely choice and distinct varieties. When started from seeds in Autumn, the plants will endure the Winter and begin to bloom early the next season. If planted in early Spring and set 8" apart in a bed, a grand display of beautiful pincushion flowers may be enjoyed during late Summer and Autumn. We offer only the best varieties which are the result of many years of painstaking selection. Pkt. 5c.

AZURE FAIRY. Beautiful celestial blue, fine, long, strong stems.

BLUE COCKADE. Deep azure blue flowers of perfect form, free bloomer.

CATTLEYA, hb, 2 ft. A splendid novelty; great double flrs of rosy-lilac; an orchid shade.

FIRE KING. Gorgeous fiery scarlet.

GIANT LOVELINESS. Delicate salmon-rose.

KING OF BLACKS. Deep reddish-black.

MINOR AUREA. Bright golden yellow.

NEW SHASTA. Giant very double white.

ROSETTE. A glorious new shade of deep rose heavily suffused salmon.

ROSE QUEEN. Fine deep rose.

PARK'S GIANT HYBRIDS. New improved strain of huge double flowers in the loveliest shades. An extra choice mixture.

Two Distinct Novelty Scabiosas :

Extra Choice Varieties

Orchid Shades. Large flowers in the loveliest tones and shades of orchid-lavender to deep royal purple. A variety to delight every gardener. 5c.

Salmon Beauty. For 12 years, work has been carried on to produce a pure salmon Scabiosa. The perfection in vigorous long stems, large flowers and beauty of color will give this lovely new development a place in the sun of popularity with fastidious gardeners. Pkt. 5c.

SWEET SCENTED SCABIOSA

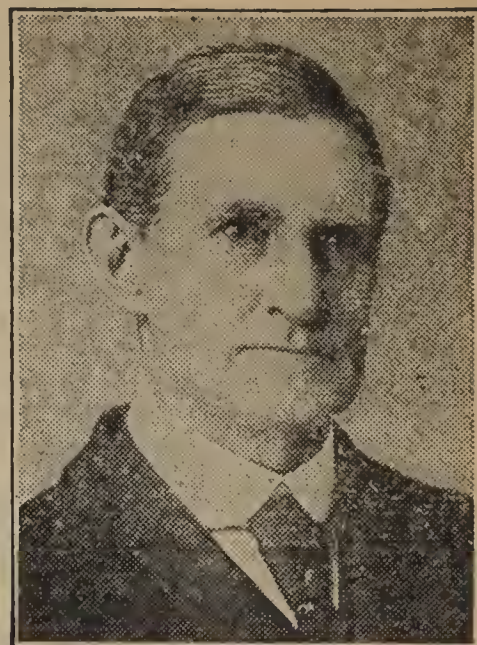

God's Love and Beauty

"My Father in Heaven, help me never to forget Thy Love to me. It comes with the light of the morning, and it remains with the light of the stars of the night. It looks up at me in the beauty of the flower. It shines upon me in the smile of a friend. All beautiful things are the gifts of Thy Love. Help me to be thankful, and to link every beautiful thing with Thee. Amen."

—John Henry Jowett.

My friends, are these your sentiments? If not, why not?

DEAR PATRON-FRIENDS:

In the preparation of our new "Flower Book", this writing of a friendly note to you comes as a most pleasant task.

We count you as friends because of the many letters of co-operation and kindly interest which we receive from you, and a warm glow of pride and pleasure comes to us from the assurance that you, too, feel this friendship tie. Your generous patronage encourages us to begin the New Year with renewed hope, zeal and determination to give to you, if possible, even better service. Your needs, wishes and pleasure are of vital concern to the Geo. W. Park Seed Co.

Our chief pride is the quality of the seeds themselves, a quality which has made this Company esteemed throughout the nation. All seeds are of the new crop, or bear such a test that will satisfy and please those who sow them. The finer strains are all the growth of famous specialists—in England, France, Germany, Holland and America—therefore you get the very best seeds that can be produced throughout the world. Every packet that bears the name of Geo. W. Park contains reliable, high-class seeds, full of life and vigor. We guarantee our seeds true to name and sure to grow under favorable conditions.

All packets sold at the uniform price of **five cents** a packet; **21 packets \$1.00; 43 packets \$2.00; 65 packets \$3.00; 110 packets \$5.00** with novelty gifts extra, as advertised on catalog wrapper. We pack and deliver the seeds by mail, post paid, guaranteeing that they will reach you in good condition. Checks and money orders are safest; if stamps or cash are sent, we advise that the letter be registered.

Again we express our grateful appreciation for your good will and patronage and assure you that your orders shall have our prompt and careful attention.

Truly yours,

Greenwood, S. C.

Geo. W. Park Seed Co.

SPECIAL NOTICE: For the choicest vegetable seeds see pages 76-82. For a full stock of summer flowering roots, tubers and bulbs of the highest quality, please see pages 83-93.

Dear Sirs: There are some who say the age of miracles is over, but, when one grows your seeds, this is hard to believe. Surly it must be a miracle when Delphinium seeds germinate in ten days, Kalanchoe, Capsicum and White Delphinium in less than two weeks. My order to you this year was a token of appreciation for your helpful catalogs. I do not believe that I spent a dollar any better in my life than in sending for some of your seeds. How you can give such peppy seed for so little I don't know, but you **may be** sure of my seed orders hereafter.

August, 1938.

THE "GLORY" SPECIALS

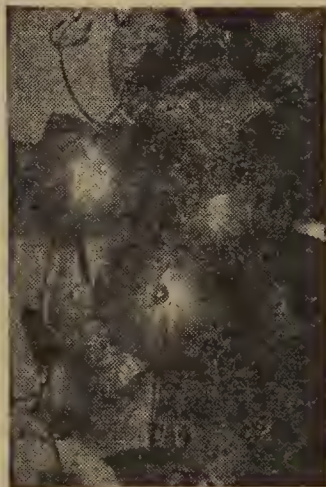

IPOMOEA SCARLET O'HARA — 1938 GOLD MEDAL WINNER

IPOMOEA SCARLET O'HARA — 1938 GOLD MEDAL WINNER. The latest Novelty Morning Glory, Scarlet O'Hara is a graceful, fast-growing vine, bearing the large, gorgeous, rich, deep wine-red flowers in abundance all summer, becoming more lovely as the season advances. On sunny days the flowers remain open until nearly noon; on cloudy or rainy days until sunset. There are few plants requiring so little care and affording so much colorful beauty. Be sure to include Scarlet O'Hara in your garden plans this season. The only Gold Medal Winner in two years. Pkt. 5c.

IPOMOEA CLARK'S MAMMOTH BLUE

MORNING GLORY. The very earliest flowering of the mammoth type. Flowers not quite as large, nor do they remain open as late in the day as "Heavenly Blue Improved", but a gorgeous, free-blooming "Glory" of celestial blue, shading to a delicious golden yellow throat. 15 seeds. 5c.

IPOMOEA HEAVENLY BLUE IMPROVED MEXICAN MORNING GLORY.

This wonderful *Ipomoea* is in all respects superior to the *Ipomoea Grandiflora Rubro-coerulea* (Heavenly Blue). The deep intense blue color shades lighter toward the center. The flowers are large, profuse and continuous, coming into bloom much earlier than Heavenly Blue, and having a much longer blooming period; flowers stay open nearly all day. 15 s. 5c.

IPOMOEA ROCHESTER MORNING GLORY. A variety which has enjoyed many years of continuous and deserved popularity. The large three-toned flowers of deep intense blue shading to rosy-lavender in throat are strikingly edged white. 25 s. 5c.

IPOMOEA DOUBLE ROSE MARIE. A quick growing, early, free-flowering *Ipomoea* that is continuously loaded with clear deep rose, double flowers. Occasionally throws single flowers. "A Must Have". 20 s. 5c.

CARDINAL CLIMBER (*Ipomoea quamoclit* Sloteri) 30 ft. Originated by Logan Slotter through crossing of the Cypress Vine and Star *Ipomoea*, this glorious, quick-growing, free-flowering annual climber is breath-taking in beauty. The attractive fern-like foliage forms a decorative background for the clusters of white-throated, tubular, brilliant cardinal flowers. Needs good soil and sunny location. 25 s. 5c.

Note : When planting *Ipomoea*, select dry sandy location and do not fertilize unless heavy foliage is desired. If sown in the open ground, wait until soil has thoroughly warmed up. If started indoors for earlier plants, use tiny individual pots and transplant without disturbing the roots.

For a full selection of choice *Ipomoeas*, see Page 52.

A FRAGRANT GARDEN

Who can afford to forego the pleasure of beginning a Fragrant Garden, with its magic perfumes which permeate the atmosphere with their exotic charm? At the very thoughts of such a garden, one catches a vision of a medley of blossoms emitting delightful scents wafted softly by balmy mid-summer breezes and made colorful by a flock of dainty gay butterflies and busy bees that will pause momentarily at each blossom to drink deeply of the hidden sweetness within.

We are listing some flowers here that will be valued for both fragrance and beauty, and each will be a worth-while addition to your garden.

SWEET ALYSSUM. A splendid little annual, valued as an edging plant, that will thrive under almost any conditions and produce scented clusters of bloom throughout the season. See page 26.

CLEMATIS PANICULATA is a vine of exceptional beauty. Sow seeds in early Spring, and in three years they will become strong plants covered with dense, pretty foliage and a sheet of lovely star-like blossoms, making the air redolent with their sweet perfume. A splendid vine for a porch trellis or summer house.

DIANTHUS PLUMARIUS. The Grass Pinks or Clove-scented Pinks need no introduction, as all of us remember these spicy blossoms of old-fashioned gardens. They are "must-haves" for every flower lover. See page 62.

HEDYCHUM GARDNERIANUM. The beautiful Butterfly Lily or Indian Garland Flower resembles a Canna until its long spikes of waxy white blossoms appear in late summer to saturate the atmosphere with their Gardenia-like sweetness. Treat as pot plants North, giving them rich porous soil, plenty of moisture and good drainage. They are hardy in the South and respond to the same treatment as Cannas.

HESPERIS MATRONALIS. The lovely and delightfully fragrant Sweet Rocket or Dame's Violet will bloom along with Perennial Phlox, and will prove to be a valuable plant for the garden.

MIGNONETTE starts readily from seeds sown at intervals during Spring and early Summer. The flowers are not showy, but their delightful perfume will fill the garden the entire season. An ounce of the seeds may be bought for only 10c, and they may be sown in odd places throughout the garden to give an abundance of fragrant bloom.

Seeds of the compact varieties, sown in summer, will give plants that may be potted for winter flowers. Packet 5c.

PETUNIAS will grace any garden. They are more easily grown, will bear more neglect, and will give more beauty and sweetness than almost any other flower. The common compact hybrids should be planted in masses or borders, and their wealth of bloom and perfume will be enjoyed until heavy frosts. See page 44.

SWEET PEAS are valued highly as cut-flowers, since they come into bloom so early and possess an unsurpassed wealth of color and fragrance to enhance the charm of your garden. See page 17.

TWILIGHT GEMS

In the quiet of the evening, the exquisite perfume of a fragrant garden will be most delightful. For a showy, sweet-scented evening flower bed, plant a clump of *Nicotiana Affinis Hybrida Grandiflora* and surround it with a ring of *Matthiola Bicornis* (the Evening-scented Stock) and *Nycterinia Selaginoides*.

The *Datura* is a fascinating group of plants bearing large trumpet-shaped blossoms which open, as if by magic, in late evening and pour forth their wealth of heavy fragrance into the

garden. See page 33.

Hebenstretia Comosa is a rare, sweet annual which fills the garden with a delicious nutty scent on warm summer evenings. The flowers are white with blotches of bright orange-scarlet, and are produced upon long spikes.

All of these flowers will yield a continuous display throughout the season, and keep the evening and night air redolent with their delightful perfume.

MID-WINTER FRAGRANCE

When the outside world is bleak and stripped of its summer verdure, your windows may be filled with the beauty and fragrance of many lovely plants.

CARNATIONS are perfect pot plants for winter blossoms. The improved strains we offer will bloom in six months from seeds, and will produce gorgeous, big sweet blossoms in the most beautiful colors. See page 30.

FREESIAS are as easily raised from seeds as Zinnias, and if sown in Spring will produce plants that will bloom the following Winter. Their delightful fragrance is unsurpassed by any other flower. See page 68.

PARISIAN WALLFLOWERS make splendid Winter-blooming plants in a window where they will be kept cool and moist. The flowers are pro-

duced in showy, scented spikes of various bright colors and develop continuously, giving a fine display throughout the winter months.

TEN WEEKS STOCKS. Seeds of this splendid annual will produce fine plants to pot for Winter blossoms. Give them rich, porous soil, plenty of water and good drainage. The bloom-spikes are bright, colorful and deliciously fragrant.

BULBS—Bulbs such as Hyacinths, Narcissus, Daffodils and Tulips, which we offer in the Fall, are "must-haves" for a Winter window garden. These are all quickly and very easily grown and are valued for their beauty and sweetness.

Plan your Fragrant Gardens now, and you will thank us for having made these suggestions.

NEW GIANT RUST-PROOF SNAPDRAGONS

It is with confidence and pleasure that we offer our customer-friends **only** rust-resistant varieties in **Antirrhinums**. There is still work to be done in perfecting a 100% rust-resistant strain; however, 75 - 90% are fully resistant, and produce strong healthy free-blooming long spikes of mammoth flowers with clean green foliage. Snapdragons are becoming more and more popular and are gorgeous for beds, cut flowers and all garden needs. Choice selections, pkts. 5c.

TALL LARGE-FLOWERED GIANTS 2½ ft.-2¾ ft.

AUTUMN GLOW. Fine spikes of old rose suffused with beautiful contrasting golden lip.

BUTTERCUP. Canary yellow shading to creamy yellow. Many fine spikes with spotless green foliage.

CAMPFIRE. Pure luminous scarlet (free from orange or bluish tinge), the yellow lip makes the scarlet still more outstanding.

CHRISTMAS CANDLE. Extra tall spikes of very large bright flame flrs with waxy cream tube.

COPPER SHADES. A fine blending of copper-orange to old gold shades. Each plant has 12 - 16 spikes. Most desirable.

CRIMSON KING. Very large fiery crimson flrs upon handsome long spikes. Particularly fine in a bouquet.

DAINTINESS. An exquisite rose-pink with white tube, well worthy of its name.

DEFIANCE. Brilliant scarlet. Very fine velvety texture.

LOVELINESS. A shade of Antirrhinum destined to become a great favorite. The large, pure soft rose-pink flrs are well spaced upon unbranching bright green stems with broad foliage. It is not uncommon for a plant to produce 12 - 16 long strong spikes.

PINK SHADES. A particularly harmonious selection. The large flrs shade from rose-pink to dainty pale pink.

SHASTA. A free-flowering shining pure white; fine for contrast with other colors.

PURPLE KING. Dark deep garnet; splendid companion bouquet with Buttercup.

SALMON BEAUTY. Well placed large flrs of delightful salmon rose-pink shades; a delightful color.

TORCHLIGHT. New, magnificent "Snap" of garnet suffused orange, with outstanding bright yellow lip.

SUPER GIANTS OF CALIFORNIA

In this splendid mixture of tall growing, long-stemmed, giant-flowered Antirrhinums is included a wide range of lovely colors, among the latest developments in rust-resistant strains. Plants are thrifty and free-blooming. Do not miss your packet.

SEMI-DWARF, LARGE-FLOWERED ANTIRRHINUMS

1½ ft. Husky Bushy Plants. Low Growing, Free Flowering.

GARNET. Rich velvety crimson.

GLOWING SUNSET. Splendid spikes of rosy-scarlet.

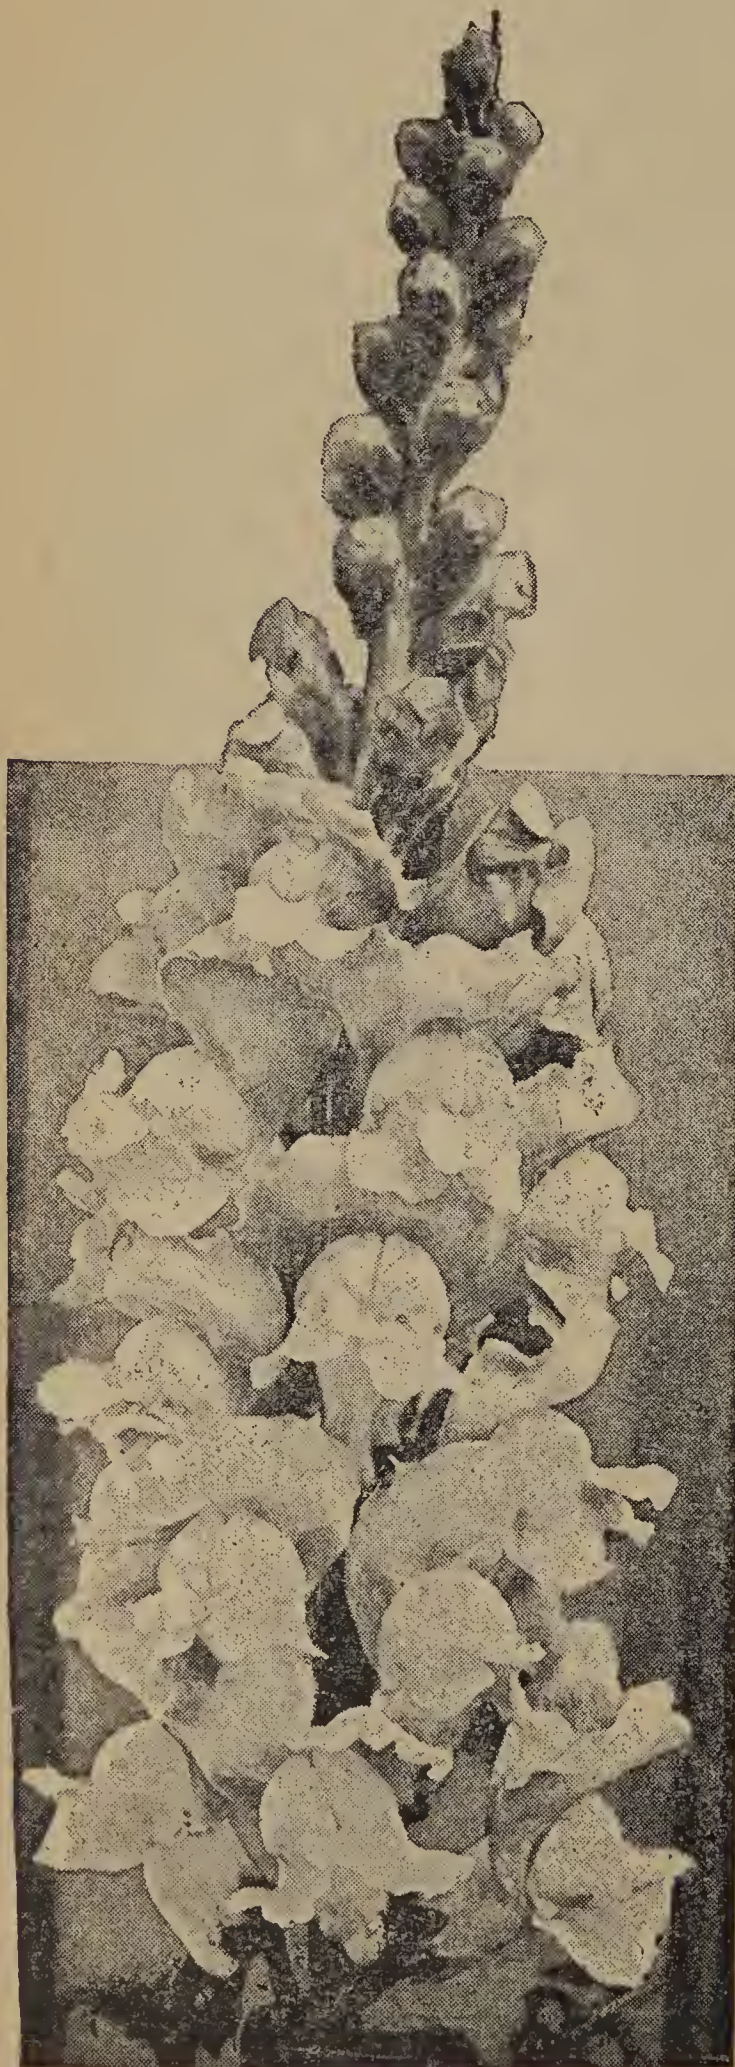

INDIAN GIRL. Marvelous Autumn shade of lovely old gold.

MOONLIGHT. Delicate shade of light salmon-pink.

WILDFIRE. Bright orange-scarlet with contrasting yellow lip, combine with Indian Girl for excellent effect.

SPECIAL ASTER NOVELTIES, WILT-RESISTANT

As each year speeds by, our plant specialists are presenting to us new or improved and intriguing types in many lines; improved forms, improved colors and improved plants. The work of the Bodgers with Asters is outstanding. We are delighted to be able to offer to our flower-friends these fine Asters in wilt-resistant varieties. Each one attractive and different and the best of its class. Pkt. 5c.

AURORA GOLDEN SHEAF, 2½ ft. The only wilt-resistant yellow Aster. Flowers are of good size with a full-cushioned center of quill-like petals surrounded by several rows of broad longer petals. Deep yellow in bud turning to rich cream when open. Very attractive and desirable novelty of great beauty.

BETTERIDGE'S QUILLED, 2½ ft. An improved late Aster with quilled petals; mixed. 100 s.

BODGER'S MAMMOTH PERFECTION, 3 ft. Our seeds are direct from Bodger, and will not only grow, but produce the finest and best flowers. We challenge a competitive trial of these Asters with those of any other strain, regardless of price. The flowers are prodigious in size, rich and varied in colors, wonderfully showy in beds and unsurpassed for cutting. This is the last word in Improved Double Asters and we offer from 90 to 100 seeds (measured) for 5 cents, that will produce plants for a large and handsome bed. A blend prepared especially for us, and sure to give satisfaction.

BODGER'S GIANT COMET OR CREGO, 3 ft. Of all Asters, this is considered the most beautiful and most useful. The long-stemmed flowers are great fluffy balls, 5 to 8 inches across, rivaling the finest Chrysanthemums, and lasting better than others when cut. You make no mistake in getting this Aster. As the countryman says, it's a "humdinger," what more can be said? Colors: Crimson, Deep Rose, Lavender Pink, Royal Purple, Shell Pink, White; separate or mixed. 100 s 5 cts.

EARLY BEAUTY, 2½ ft. A type of Aster that has been on the market for several years, and has received deserved popularity, coming in ten days before the American Beauty. Plants are sturdy, stems long and strong, bearing well-formed flowers. The petals are broad, firm and incurved, having a slight whirl at the center, a very lovely type that blooms for weeks and is both showy in beds and fine for cutting. We offer the following colors: Brilliant Crimson; Deep Rose, a rich bright rose; Light Lavender; Purple, a very dark blue; September Beauty, delicate pink; White and mixed. Pkt. 5 cts.

EARLY ROYAL, 18 in. Following Queen of the Market, a new Branching Aster especially suited for beds and borders, although desirable for cutting; flowers full, fluffy, very handsome; will become popular when better known. Azure Blue, Lavender Pink, Deep Rose, Royal Purple, White; separate or mixed.

ASTERMUM, 2 ft. Branching plants, erect, bearing large double flowers not unlike a fine Chrysanthemum. 100 s mixed.

EDELWEISS, 6 in. Delightful Tom Thumb variety in lovely white wilt-resisting strain.

Aster Early Beauty

Aster Aurora Golden Sheaf

GIANT VICTORIA, 3 ft. The old Victoria Aster enlarged and improved; plants with short strong branches, the flowers of immense size, well developed and showy. One of the good modern Asters. 100 s mixed, 5 cts.

HEART OF FRANCE, 2 ft. Rich dark red Aster; very large and double; blooms during Sept.

KING ASTER, 2 ft. Known as Needle Aster; is a splendid keeping variety. The petals are slender and pointed at the tips. The flowers are quite large and handsome, attaining from 3 to 3½ inches in diameter. Colors: Rich Crimson, Lavender or Azure Blue, Shell Pink, Brilliant Rose, White and mixed.

OSTRICH-FEATHER IMPROVED, 2½ ft. Tall branching, robust, splendid for beds; flowers immense fluffy balls, showy, long-stemmed, excellent for cutting. This is one of the largest and most beautiful of all double Asters. It's a "top-notch." Colors: Deep Rose, Crimson, Lavender Pink, Royal Purple, Azure, White; separate or mixed, 100 s 5 cts.

PEERLESS PINK, 2½ ft. Lovely new shade of shell pink. Strong grower, flowers large, double and of fine form. Seeds taken from best selected stock. Sure to grow, sure to please. Pkt. 5c.

PEERLESS WHITE. Companion to Peerless Pink. Splendid form; fully double. 5 cts.

QUEEN OF THE MARKET IMPROVED, 15 in. The earliest wilt-resisting Aster; plants branch, produce long leafy stems surmounted with large, very double Asters of fine form; wonderfully showy in beds, fine for cutting. We supply Crimson, Dark Blue, Scarlet, White; separate or mixed, 100 s 5 cts.

SINGLE GIANT IMPERIAL RED is a new and lovely Aster to be added to your wilt-resistant collection. The plant is a strong grower, producing many giant, single, intense red flowers with a contrasting yellow center. The curled and interlaced petals and fine stems have put this wonderful flower in Class A. Do not miss it. A splendid cut-flower.

THE LATEST AND BEST IN ASTERS

THREE NEW WILT-RESISTANT VARIETIES. PKT. 5c

EARLY GIANT LIGHT BLUE. 3 ft. Silver medal winner. The extra large, lacy, curled, 5" flowers bloom four weeks earlier than Calif. Giants.

EARLY GIANT PEACH BLOSSOM. Companion to "Light Blue". New, early, dwarf-growing strain of Giants. A glorious Aster.

GIANT PAEONY-FLOWERED SILVERY ROSE. 2½ ft. A superb full double, fine keeping Aster of exquisite color. All American Award.

SUPER-GIANT LOS ANGELES. Award of merit, is a lovely delicate shell-pink, blending to a creamy pink center. The handsome, robust plant produces large graceful feathery-petaled flowers upon fine upright stems. Showy in the garden and fine for cutting.

SUPER-GIANT EL MONTE. Special 1936 Council selection. Large deep glowing crimson, a companion, but earlier flowering variety, to Los Angeles. Those who take pride in growing the finest types of flowers must have these three Super-Giant varieties.

SUPER-GIANT QUEEN OF PROVENCE. New lovely large white in this marvelous Aster.

BEACON. 18 in. Brilliant copper scarlet, large flowers and very free-blooming.

FIRELIGHT. New, branching habit, tall growing, very double, beautiful bright red.

CALIFORNIA GIANT SUNSHINE. The most beautiful Aster in the world. Fascinating new type. The mammoth 5 in. flowers are composed of a single row of loosely placed outer petals contrasting with great charm to the unique quill-like yellow center. Plants grow to a height of 2 to 3 ft. and bear splendid heavy stems. We offer an excellent assortment of colors all with varying shades of yellow centers. Alpenglow, purple; Blue Moon, light blue; Lavender; Moonbeam, snow white; Rainbow, rose pink; Stratosphere, dark blue; Enchantress, salmon pink. Separate or in splendid mixture.

California Giant

Sunshine Aster

ASTER SENSATION. One of the best and most popular of the American branching types. Large, full, bright glowing scarlet flowers on leafy stems. 5c.

ASTER PEERLESS YELLOW. 2½ ft. Another color to add to your "Peerless" selections. Large, double flowers in the lovely and desirable creamy yellow color. 5c.

Sirs: I want to tell you that I raised wonderful Asters from the seed bought from you last year. I am sending you a snapshot of one blooming Aster plant (Early Beauty, White) for which I received a cash prize of five dollars in a National Flower Show. All of the seeds I bought from you last year grew fine plants; I had a beautiful flower garden.

Feb. 15, 1937.

Mrs. Minnie Ellis, Essex Co., Mass.

Improved Giants of California

IMPROVED GIANTS OF CALIFORNIA. These are now in great demand. The plants reach a height of 3 ft. and carry 10 to 12 long strong stems with flowers that are large, full and curly tipped. Extra fine.

SINGLE GIANTS OF CALIFORNIA. Among the continually popular varieties is the original type of single Asters, now greatly improved in the Single Giants of California. The flrs are large, attaining a diameter of 3 to 4 in. The broad heavy petals are set closely around the large yellow eye. Plants sturdy, stems fine. We offer this mid-season popular variety in choice mixture, many colors.

IMBRICATED POMPON. 1 ft. Early-flowering, of upright habit. The plants bear small round, cushioned flrs. in profusion; delightful and charming for table decorations. We offer the finest colors in a splendid mixture. 5c.

LILLIPUT. 1 ft. The Lilliput or Button Asters differ from the Imbricated Pompoms in being flat-topped, button-shaped, and are well adapted for pots and beds. Finest colors mixed.

COLLINSIA BICOLOR. A beautiful hardy perennial from California is *Collinsia Bicolor*, which has been in cultivation since 1833, but is not so well known as it justly deserves. The plants grow a foot high, bearing downy, erect, branching stems, sparingly clothed with delicate foliage, the tips set with whorls of exquisite little snapdragon-like flowers, the upper lip and tube white, the lower rosy-purple. The culture of this annual is simple. The seeds may be sown in a sheltered bed in Autumn and the plants given some special protection if the climate is very cold. Plants thus grown will flower during the spring and early summer, while the weather is cool and moist, and make a fine show in the garden. In the Southern States the seeds should be invariably sown in Autumn and in the warmer sections the blooming period will be during the Winter. At the north most persons sow the seeds early in the Spring. The plants then bloom later, but if the season is favorable the flowers afford an admirable show.

NEW LEMOINE'S GIANT HELIOTROPE. Easily raised from seeds, the plants may be bedded out or treated as pot specimens. They are showy in appearance and the exquisite masses of bloom, filling the air with their delicious odor, make them prime favorites.

Asparagus Fern

and few are lost, even when somewhat neglected. As a rule, the seeds germinate well, and a large percentage of them will form plants, especially if started during summer. When well grown, they are beautiful, and those who have a surplus of plants can readily dispose of them at a fair price to lovers of handsome window plants. July and August are good months in which to start the seeds. Sow in rows in a box of well-prepared soil, and cover the seeds an eighth of an inch deep with sifted leaf-mold and sand. Water and

ASPARAGUS PLUMOSUS, sometimes called "Lace Fern" because of its delicate lace-like foliage, is readily started from seeds, and it is by this means that florists propagate it in large quantities. The seeds usually require from a month to six weeks to germinate, but when the little plants appear they seem hardy

keep moist and shaded until the plants appear, then admit more sunlight but avoid the full direct sun. Pot the little plants in small pots as soon as large enough to transplant, and shift into larger pots as they grow. These simple hints, if heeded, will insure success in growing the seedlings. Large plants can be divided, but where seeds can be obtained it is far better and more economical to raise the plants from seeds.

THE VIRGINIAN

STOCK is known botanically as *Malcomia Maritima*, a native of Europe near the Mediterranean Sea. The genus embraces twenty or more species, mostly annuals, but the only one in common culture is *M. Maritima* or the Virginian Stock, which is a very pretty, free-blooming annual, showy in garden beds, and excellent for window pots.

Virginian Stock

The flowers have four petals and are of various colors from pure white to deep crimson. The plants appear to the best advantage when grown in masses, and to do this the seeds should be sown in rows five inches apart and the plants thinned out where they seem too thick in the bed. Sown in early Spring, the plants will bloom well during the Summer. Started in June, they will make a fine display in Autumn, the cool weather apparently developing the plants and flowers to perfection. A dozen plants in a six-inch pot become a grand mass of bloom in a cool room, and if the dark, rich-colored varieties are grown in this way, the effect is very striking.

NOLANA. The best species of *Nolana* is *N. Atriplicifolia*, which is a prostrate hardy annual suitable for edgings, rock-work and baskets. The flowers are shaped like a small Morning Glory, mostly blue with a white center. Sow the seeds early where the plants are to bloom, as transplanting is difficult. An open, sunny place will insure a thrifty growth and a fine display of flowers.

Nolana

Mole Tree

RICINUS is often called "Mole Tree" because it is thought to drive moles from the garden in which it is grown. *R. Arboreus* will grow 15 ft. high. All the varieties have handsome semi-tropical leaves, and make a fine display when judiciously grouped together. In Florida the plants are perennial, and will often attain the height of 20 ft., growing in dry, sandy soil. The seeds are large, bean-like, and are curious, being beetle-like in form and markings. They are readily grown in the garden.

THE EVERLASTING FLOWERS are so called because of the straw-like character of the petals, which promotes the lasting shape and color of the flowers when dried. They are thus useful for the formation of winter bouquets, to be used in house decoration at a time when garden flowers cannot be obtained. The most beautiful and easily grown kinds are single and double-flowered *Acrocliniums*, *Ammobiums*, *Edelweis*, *Gomphrena*, *Gypsophila*, *Helipterum*, *Helichrysum*, *Rhodanthe*, *Statice* and *Xeranthemum*. Most of these show a number of fine species and varieties, differing often in shape as well as in size and color. If some of the annual grasses as *Agrostis*, *Briza*, *Lagurus* and *Pennisetum* are raised and dried, they will be found very useful to make up with the dried flowers. All, both flowers and grasses, are easily started from seeds and easily grown, and the seedling plants will develop and mature the first season, if started early. The flowers should be cut mostly when in bud, to prevent the discoloration of the center. Blooms of *Gomphrena* and *Xeranthemum*, however, should remain upon the plants until well developed. The grasses should be cut when in bloom. All should be dried in the shade, a dark, rather warm room or closet being the most suitable place for drying so as to retain the natural colors as well as forms. When well dried, they may be dipped or brushed with a poisonous liquid to prevent the ravages of certain insects which are troublesome upon dried specimens in some sections.

Saponaria Ocymoides

SAPONARIA OCYMOIDES.

Most of those who read the *Floral Magazine* know the hardy old-fashioned flower commonly called "Bouncing Bet", a hardy perennial found in many places by the roadside. That is *Saponaria Officinalis*, the tops of which, when beaten, will form a lather and can be used instead of soap for cleansing purposes. It bears clusters of light pink

flowers throughout the season, and is useful for planting along embankments or streams to prevent damage in time of floods. A very much more handsome and desirable perennial, however, is *Saponaria Ocymoides*. Like its more common relative, it is perfectly hardy and of the easiest culture. Like it, too, the young plants are easily started from seeds sown during the Spring or Summer, and will bloom freely the following season. This beautiful *Saponaria* is of trailing habit, and well adapted for planting upon old walls or for decorating rocks and barren places, as it will grow in poor, dry soil and endure hardships that would kill many other plants. For the cemetery, it is very desirable, the delicate pink clusters appearing in glorious masses during May and June and usually at their best about Decoration Day. As a border plant, and for massing in neglected places, there is certainly no flower more desirable. Once started, the plants will take care of themselves and reveal their charming beauty regularly every season. This *Saponaria* is an alpine plant from the mountains of Italy and Switzerland. It should be an indispensable flower in every perennial collection.

LUNARIA BIENNIS

BIENNIS is a very desirable hardy biennial, readily propagated from seeds and easily cultivated. It grows from a foot to two feet in height, and bears in the Spring large clusters of showy flowers not unlike Sweet Rocket in general appearance and emitting a delicious

A Handsome Biennial

odor. Started in early Spring, the seedlings will bloom in the Autumn, but the better time to sow is in July or August. The young plants will then endure the Winter and bloom freely the following season. The flowers are succeeded by the large silvery seed pods which are as showy and as much admired as the flowers, and when cut are fine for Winter ornaments. On account of these curious seed vessels, the plant is often called "Silver Leaf." Its more common name, however, is "Honesty."

FOR A DENSELY-SHADED PLACE, get the beautiful Allegany Fringe Vine, *Adlumia Cirrhosa*. Its foliage is as delicate as a Maidenhair Fern, and is exceedingly graceful, while the numerous branching stems are thickly set with clusters of waxy pink bloom. No place is too densely shaded for this exquisite vine, and no vine will excite more admiration. It deserves to be generally cultivated. Easily grown from seeds, which germinate tardily. Sown in fall, they will germinate the following Spring or Summer. It is a true biennial, blooming the second season and then dying.

ARABIS ALPINA is a hardy perennial of rare beauty, blooming early in spring. The flowers are white or rose, in clusters, and remain in bloom for several weeks. The plants are easily grown from seeds, and are especially desirable for growing in crevices of rocks upon the north side where they are not liable to be injured from the hot sun. In a well-drained garden bed, however, they thrive and make a fine display, appearing as a sheet of bloom shortly after the snow has disappeared. The plants are not particular as to soil, growing either in a sandy situation or in loam or clay. A good, porous soil, however, is preferable, and they should stand from 6 to 8 inches apart in a bed. They improve with age under favorable conditions, and each plant will become a handsome strong clump of pretty foliage which is much admired throughout the Summer and Autumn, after the flowers have faded. It is a perennial that should be found in every garden.

PANSIES, Largest and Finest

These are so well and favorably known that a description of their exquisite beauty and usefulness in the garden is unnecessary. They are simply indispensable, and if we were to select a half dozen of our best seedling flowers the Pansy would be one of them. There is, however, much difference in the strains, some being greatly superior in the vigor and free-flowering quality to other plants, as well as the great size, form, variety and richness of colors and variations. We are pleased to say that the seeds we offer are from Pansy specialists, all of new crop, and cannot be surpassed in quality.

Engelmann's Giant. A distinct and superior Scottish show type of Pansy that should be found in every garden. The plants are thrifty and luxuriant and the handsome long-stemmed flowers begin to bloom early, and if kept plucked, the bed will form a glorious display of marvelous perfection in flowers ranging from the deep bronze, golden, purple and reddish shades to the exquisite blues, yellows, and creams, blotched and marked to perfection. Originator's seeds. Pkt. 5c., 1-32 oz. 50 c.

Vis' Super-Giant. This is the last word in Pansy improvement, largest flowers, longest stems, greatest variety in colors and variations, most compact and free-blooming plants and surpassing all others in many elements that go to produce a perfect strain. Pkt. 5c., 1-32 oz. 50 c.

Giant Mastodon. Enormous flowers of richest colors; saved from selected plants only.

Mette's Triumph of the Giants. Perfection in Pansies. Robust plants, long stems, huge ruffled blotched flowers of striking and brilliant beauty in delicate tones and rare, rich colors.

American Beauty Blend. This is the finest blend of Pansies that can be made. It contains seeds of only the best giant-flowered varieties, and includes all the richest colors.

Ruffled Masterpiece. A most striking, huge, ruffled and frilled Pansy. This mixture contains a wonderful assortment of dark shades.

Giant Maple Leaf. Compact plants with super size foliage and flowers averaging 4 in. across in lovely bright colors including rich, velvety, dark colors, typical of Pansies.

Maple-leaved Velvet Jewel. The largest Pansy in existence, true velvety purple.

Benary's Exhibition. Finest of blotched Pansies, huge frilled blooms, richest varied colors.

Cassier's Giant Blotched. Largest-flowered class of blotched Pansies; from choice plants.

Oregon Giants. A popular large-flowered variety in fine mixture; good color range.

Bedding Mixture. Choice mixture of all colors; for beds. Packet 5 cents, 1-4 oz. 20 cents.

The New Giant Bellflower of Bokhara

☛ A Glorious Perennial

THE GREAT BELLFLOWER

Plants grow six feet high. Flowers six inches across.

☛ Largest, Most Showy, Most Beautiful of all "Campanulas".

Here is a picture of the Giant Bellflower of Bokhara. It belongs to the order Campanulacea, and is by far the most stately, gorgeous and beautiful of all Bellflowers. No other can ever approach it in size and exquisite beauty. The plants, six feet high, form a big long tuberous root, and are clothed from the ground up with whorls of handsome glaucous leaves, the top dividing into from two to six stems, each bearing a giant bellflower, lilac in color with blue veins. The roots are brittle and plants must be transplanted with care. They thrive in deep, rich, sandy loam, and in a sunny situation. Dig holes two feet deep, place at the bottom a liberal supply of well-rotted stable litter and fill in with the soil, setting the crown six inches beneath the surface. Tread well when planting. Protect from severe winds in the Spring. This splendid novelty was found in Bokhara, Turkestan in 1887, at an altitude of 7000 ft., and is perfectly hardy. Pkt. of 10 seeds 5 cts.

☛ Seeds scarce. Name substitute in case of shortage.

Pyrethrum Roseum

"Painted Daisy"

The beautiful single and double Pyrethrum is a hardy perennial blooming in May and June. The plants are readily propagated from seeds, grow eighteen to twenty-four inches high, bearing the flowers at the summit of long stiff stems. The colors are in lovely variations from white to crimson and are showy in the garden as well as for handsome bouquets. The cut-leaved foliage is as attractive and graceful as that of a fern. Sow the seeds in a well prepared bed and transplant to eight inches apart. Cultivate well, and as summer approaches, mulch with stable litter to promote the beauty and continuous blooming of the flowers. If plants are cut back when first crop of bloom fades, new shoots will spring up and produce a second flowering.

WALLFLOWERS

No garden is complete without a few Wallflowers. Both annual and perennial varieties in single and double flowering sorts may be obtained. The plants are easily raised from seeds and produce gorgeous spikes of delightfully fragrant blossoms. They come in rich browns, reds, yellows, creams and variegations which are lovely for cutting and fill the air with delicious perfume similar to that of fresh violets.

In recent years a remarkable new Wallflower, originated in Germany, known as **DOUBLE EARLY WONDER**, has been produced. Flowers may be had from seeds in five months. Early sowings will give blooms in autumn; June to September sowings during winter and early spring. The 2ft. plants produce fine long spikes of sweet scented flowers. We offer an extra choice mixture in colors of primrose through golden and deepest brown. Packet 5¢.

CARNATIONS

The Carnation is one of our most desirable perennials. The plants start readily from seeds, stool out into fine clumps, begin to bloom in five months, and bloom continuously. If potted, they will bloom in the sunny window in winter. The flowers are large, perfectly double, deliciously fragrant, and come in rich colors, some striped or blotched. The plants will last for years, requiring a little protection at the far north. To protect, simply place a board frame a foot high around the bed and fill it with dense, nude brush. This method may be used with other plants as well.

Adnet's New Giant Gerbera—Transvaal Daisy

A glorious cut flower. Huge Daisies on 15-inch stems. Rich varied colors, lasts well. Fashionable. Everblooming. Hardy in the South but needs protection North.

Prepare a window-box of sandy porous soil, sifting and pressing the surface. In this place the seeds, the fuzzy end just showing at the surface. Cover the box with a thick paper and do not let the soil dry out. Examine daily, and as soon as the plants start, which will be in three or four weeks, remove the paper. Avoid wind, storm, and hot noonday sun. When large enough, set in small pots with good drainage, and shift into larger pots as the plants develop. They should begin to bloom in eight months and are ever-blooming, lasting for years.

This is an outstanding perennial and one of the very beautiful free-blooming pot plants that should be better known. Its easy culture and exquisite beauty commend it to all flower lovers. Don't fail to start some plants this season. 12 seeds 5c.

ORIOLE. Immense orange and gold flrs, changing slightly as it ages, but at all times very pretty.

POLAR BEAR. Immense, pure white, the best white yet found in Zinnias; true Dahlia form.

PURPLE PRINCE. Rich deep purple; odd but showy.

SCARLET FLAME. Magnificent, scarlet, with a delightful blending of orange throughout the petals.

YOUTH. Beautiful soft rose self, a good forcer and shipper as it has superior lasting qualities; fine.

Separate 25 s. Complete Special Mixture, 40 s.

PASTEL DAHLIA-FLOWERED MIXTURE. For a very choice blend, we offer a marvelous mixture of delicate shades: light pinks, creams, lavenders and whites. A bouquet of entrancing beauty. Pkt. 5c.

Giant Gold Medal Zinnias

BODGER'S CALIFORNIA GIANTS

4 ft. This class produces very large flat double flrs on long stems; showy in beds and fine for cutting. We call them **Queen Zinnias**. Pkt. 5c.

DAFFODIL QUEEN. Improved canary yellow.

GOLDEN QUEEN. Bright golden orange.

LAVENDER QUEEN. Deep rosy-lavender.

QUEEN HELEN. Fine soft pink.

ROSE QUEEN. Striking deep rose.

SALMON QUEEN. Lovely salmon-rose.

SCARLET QUEEN. Gorgeous deep scarlet.

SNOW QUEEN. Best white Zinnia.

Zinnia Lilliput

BORDER ZINNIAS

PASTEL LILLIPUT MIXTURES. These delightful Baby Zinnias are in lovely soft shades of apricot, peach, creamy yellow, shell-pink, delicate salmon, light rose and orchid. The small symmetrical flowers in this specially prepared mixture will make an attractive decoration.

LILLIPUT, Button-flow'd, 1 ft. Branching plants, small double flrs; new and beautiful; fine for cutting. Known as GEM Zinnias.

Canary Gem, Golden Gem, Pink Gem, Purple Gem, Salmon Gem, Scarlet Gem, White Gem. Each 35 seeds, 5c.

TOM THUMB GEM. Very dwarf four to six-inch plants covered with tiny button flrs in a wide color range. Excellent for pot or border.

GYPSY GIRL. Haageana type, composed of small, 1 in. double and semi-double chocolate-maroon flrs with golden yellow band. The plant is very dwarf and becomes smothered in the charming little flrs. A distinct addition to the bedding Zinnias.

HAAGEANA PERFECTION, 1 ft. Compact, free-blooming, good for beds, dble. orange and lovely rare shades.

PUMILA, 1 ft. Semi-dwarf, lovely for beds, branching, very free-blooming, fine for cutting. Colors: White, Salmon Pink, Crimson, Scarlet, Mixed. 40 s.

PUMILA PICOTEE DELIGHT, 1 ft. New salmon rose, very double, every petal curled, distinctly margined.

SANVITALIA PROCUMBENS. (Creeping Zinnia). Tiny 1/2 in. double button-like flrs. of deep golden yellow carried in profusion upon prostrate 4 in. plants. This lovely little spreading plant will thrive under extreme drought conditions, thus making it an invaluable edging or rockery plant.

NEW AND NOVEL TYPES

CROWN OF GOLD. Here is an Aristocrat among Zinnias which holds a continued high place with the novelties. The individual flower color is pronounced at the tips of the petals, while the heart or base of each is richly overlaid with gold, giving a gorgeous effect. A Zinnia you must have!

EARLY WONDER. 1 ft. Early-flowering, first of a new race, masses of lovely rose flrs. on long stems.

DESERT GOLD. This fascinating variety is a worth-while novelty. Bright, showy, and attractive. The plants bear a generous quantity of large, well-formed dual-toned golden flrs, deep gold shading lighter.

GAILLARDIA-FLOWERED (Navajo) A fine mixture, the flrs resemble a Picta Double Gaillardia in form and colors, being medium size double and semi-double

STELLATA HYBRIDA. Charming new hybrid Star Zinnias. The tapering downward twisted petals, in lovely shades, furnish an outstanding novel and choice class of Zinnias. Fine for cutting.

SCABIOSA-FLOWERED. This splendid type deserves more attention. The flrs. resemble the annual Scabiosa from which they get their name. The plants grow 2-2 1/2 ft. high, come into bloom in 40-50 days and bear freely and continuously throughout the summer. We offer a splendid mixture containing a wide range of colors. There will be a small percentage of single flrs, but good growing conditions lessen these. These flrs. make particularly lovely bouquets and table decorations, sure to please.

VICTORY MIXTURE. Another distinctly new achievement in Zinnia development. We are most happy to offer you these artistically quilled-petaled beauties in a well-balanced color range.

Zinnia Fantasy

FANTASY MIXTURE. A bright colorful group of this odd and popular variety. The medium sized blossoms are intriguing with their shaggy twisted and tubular petals. All American Selection. In all of the lovely pastel shades and also the gorgeous warm colors of purple, gold and red.

STAR DUST. The first color of new popular Fantasy type. Attractive deep, rich, gleaming gold with delightfully shaggy, twisted petals.

Three New Fantasy Zinnia Colors. 5c.

All robust growers, with the characteristic shaggy, twisted petals.

ORANGE LADY. Rich deep orange.

ROSALIE. Lovely bright rose.

WHITE LIGHT. Glistening white.

SUPER CROWN O' GOLD PASTEL TINTS. New. Extra large flowers in delicate shades. The finest in zinnias. 5c.

CUPID. 1 ft. An excellent and dainty table decoration. Compact plants bear a rich variety of small button-like flowers. Splendid for border or rockery. 5c.

NOVELTIES OF MERIT AND DISTINCTION

All Packets 5c

The latest novelties and choice improved varieties will be found all through the catalogue in the class to which each belongs; however, we direct your attention to a few additions below : •

Petunia, Hollywood Star

PETUNIAS are in the forefront with many outstanding novelties.

Hollywood Star. (1939 Silver Medal). This charming rich rose flower with delicate amber throat is unique in its form of a "Five Pointed Star." Vigorous plants bear abundantly all season. Highly desirable.

Velvet Ball. Compact round 8" plants are smothered in 2½" Flaming Velvet flowers and have no equal for pots, edgings and borders.

Golden Jubilee. Lovely Grandiflora variety, the deep carmine exquisitely fringed flowers are enhanced by the golden throat.

Giant Ruffled Marilyn is unquestionably the most attractive color now available in any petunia; lovely salmon-rose with deeper veining. Upright in habit, heavy foliage and an abundance of large ruffled, open-throated flowers.

Salmon Supreme. (1938 A. A. Award). The compact plants bear a profusion of glistening soft salmon-pink flowers. Very popular.

Royal Blue. Splendid balcony type bearing large deep velvety-blue flowers.

AGERATUM Venus. 6" Dwarf compact plants densely covered with delicate pink heads of flowers. Attractive border subject.

AGERATUM Yellow Beauty. 6". Companion to Venus.

CARNATION CHABAUD Fantasy. A splendid and novel variety in attractive picotees and stripes. Plants about 18" tall; excellent stems.

CARNATION GRENADIN White Gold. Extra double beautiful soft yellow fragrant flowers, free blooming.

Pansy, Shakespeare

PANSY Shakespeare. This simple, quaint, tiny, poetic Pansy was found by accident and developed by Waller-Franklin Seed Company of California. Easily grown and lovely for a small semi-shady nook, it delights all who see the modest plant with its dainty flower faces.

CHRYSANTHEMUM SEGETUM Yellowstone. The first double segetum annual. Extra large, substantial, intense sulphur yellow flowers borne on 15" stems. Long flowering, excellent keeper.

AQUILEGIA Clematiflora (New spurless Columbine). Medium height, compact, free-flowering plant with large open Clematis-shaped flowers in delicate colors.

AQUILEGIA VULGARIS Edelweis. Vigorous low plants are outstanding with long, upright stems bearing large snow-white blossoms.

CALENDULA Twilight. Lovely new "Sunshine" variety. The 4" pleasing creamy-yellow flowers are held aloft on long wiry 15" stems.

CALENDULA Sunburst. A bright shade of apricot-orange, lightening to yellow at center with artistically arranged petals forming a flower of striking beauty and substance.

CALICO OR RAINBOW CORN. Ornamental ears of varicolored grains used in winter decorations with gourds, seed pods, etc.

CENTAUREA ODORATA Honeymoon. Sweet-scented choice golden-yellow cut flower.

COREOPSIS GRANDIFLORA DOUBLE New Gold. An ideal cut flower with long stems bearing large, fluffy, 100% double rich golden flowers.

COSMOS SENSATION. Extra early colossal 4"-6" flowers with broad, heavy, fluted overlapping petals in three colors: **Cardinal**, new rich crimson; **Pinkie**, delicate pink; **Purity**, pure white. All bloom in 10 weeks from seed.

CUPHAEA Firefly. An outstanding, neat, dwarf, quick flowering, colorful plant for pots, window boxes or the rockery. The profusion of beautifully formed fiery cerise flowers begin to show 14 weeks from seed and presents a blaze of color throughout the season.

DIMORPHOTHECA AURANTIACA Salmon Beauty. Among the lovely, new quick and long-flowering annuals from South America are these Dimorphothecas. Foliage clings closely to the ground and the long wiry stems carry at their summit beautiful upward curved-petaled daisy-like salmon flowers.

Godetia, Dwarf Compact Ruby

GODETIA Dwarf Compact Ruby. For beds and borders, this delicately beautiful 12" plant, with a final spread of about 18", is ideal covered with hundreds of deep ruby red flowers. Sow early in light soil and sunny exposure for a glorious display.

GODETIA White-Swan. Pure satin white, striking in contrast with Ruby.

HOLLYHOCK Indian Spring. (Silver Medal.) Fine annual coming into bloom in 5 months from early sown seed. Four-foot plants bear semi-double 5" flowers in shades from pale pink to crimson rose.

PHLOX GIGANTEA Salmon Glory. (Silver Medal.)

One of the finest novelties of the season. Ten inch plants bear enormous trusses of pure salmon-pink flowers with distinct creamy-white eye; the individual florets are $1\frac{1}{4}$ "- $1\frac{1}{2}$ " in diameter. We highly recommend this lovely novelty.

Phlox, Gigantea Salmon Glory

GENTIANA Andrews. (Closed Gentian.) Brilliant blue.

GENTIANA Crinita. (Fringed Gentian.) Large clear blue fringed flowers. Tardy and difficult.

IPOMOEA Cornell. Large flowering Morning Glory of beautiful cerise-rose with distinct white margin.

LARKSPUR GIANT IMPERIAL Miss California. A fine salmon-pink to complete the Giant Imperial group. The tall upright spikes are thickly set with handsome double florets.

LINARIA MOROCCANA Ruby King, rich red, **Golden Gem,** deep golden yellow, are two fine, quick growing annuals with attractive Antirrhinum-like flowers.

LUPINUS RUSSELL'S HYBRIDS. The flower of international fame. The most outstanding new flower to date. Acclaim and medals were awarded abroad both to Mr. George Russell, the originator of this superb Lupin strain, and to the flowers themselves; also enthusiastically received in America. Now being offered for the second season. The strong growing, cut leaved foliaged plants bear enormous, well rounded, long, symmetrical 3' spikes closely spaced with large flowers in a great variety of rich colors never before achieved in Lupins: deep yellows, purples, oranges, reds and bi-colors besides the white, pinks and blues. Never a display like this in the flower world. We sell nothing but "Originator's Stock." Guaranteed Genuine Russell Lupin Seed. **Re-selected stock,** seed from named plants. 2 seeds 5c; 12 seeds 25c; 50 seeds 65c. **Original stock** seeds. 3 seeds 5c; 10 seeds 15c; 24 seeds 25c; 80 seeds 65c.

LUPINUS POLYPHYLLUS Cross Roads. One of the most beautiful colors: pleasing shell pink. 15 s.

MARIGOLD Sunrise. An early blooming form of **Dixie Sunshine.** The 100% double, ball-shaped golden heads of dazzling beauty come into bloom early and continue until frost.

MARIGOLD American Beauty in separate colors: Rich creamy yellow 5c, deep glowing orange 5c. Try a packet of each.

MYOSOTIS Lavender Gem. Erect plant habit with dainty mid-lavender blue flowers of distinct beauty.

NIEREMBERGIA HIPPOMANICA (Dwarf Cup Flower). 5". This new half-hardy perennial is a plant you must not miss. Dwarf, compact and neat in habit with light gray green foliage practically hidden by the many lovely lavender cups daintily touched with yellow at center; it is unexcelled for borders, window boxes and the rockery. The first blooms appear in about fifteen weeks from sowing and the profusion of flowers continues until heavy frost.

OENOTHERA Fragrans. Pretty neat plant with open, sweet scented golden flowers.

PELARGONIUM Lady Washington. Enormous trusses of extra large flowers in a choice mixture of many colors. 3 seeds 5c.

PAPAVER NUDICAULE, Imperial Jewels. Outstanding, new and regally splendid is this Iceland Poppy mixture. It contains a marvelous range of colors of only the very finest poppies yet produced: light to deep orange in every shade and tone, pure white, all of the deep and pastel pink shades and the most gorgeous scarlets and reds. Long stems, huge beautifully frilled and fluted flowers. (The last word in Iceland Poppies. Get your packet.)

STATICE SINUATA Tom Thumb. A beautiful hybrid mixture for beds and borders.

SALVIA Charm or Blaze of Fire. This dwarf, compact, free-flowering glowing scarlet Salvia is the earliest of all to bloom. Extra fine.

SWEET PEA Crony. An exhibition Sweet Pea of the first rank. Large soft golden salmon flowers are borne on extra long stems.

TITHONIA Speciosa Fireball, 8'. Brilliant vibrant orange-scarlet petals in gorgeous contrast to the clear yellow disk. Long stemmed flowers from base up and the plant does not become ragged looking. Extra early blooming, extra large flowers, extra gorgeous color. New.

VERBENA. We are offering three colors in a distinctly new type Verbena: Plants are very compact, dwarf and erect, and come quickly into flower. Plant in early spring for flowering beds all summer; plant in fall for winter pots: **Fireball,** brilliant scarlet; **Pink and Rose Bouquet,** popular pink shades; **White Bouquet,** lovely pure white. Try them.

ZINNIA Linearis. 8". A beautiful window box, border or edging plant. New, unusual and interesting. The myriads of golden-orange flowers (each petal with a lemon stripe) smother the compact plant. Comes into bloom in six weeks and continues until frost. Very drought resistant.

ZINNIA WILL ROGERS. Giant flowers of outstanding and strikingly beautiful intense scarlet.

Balsam Camellia-flowered

BALSAM, hha. Among the most popular, beautiful and showy of the easy growing annuals are the "Touch-me-nots" coming in a great many colors, some pleasingly variegated. The flowers are large and as double as roses, waxy in texture, admirable in beds and borders, thriving in sun or shade in any rich soil, and doing well in pots or beds. Started in Autumn, they bloom in the window in Winter. We offer some of the finest varieties.

Benary's Prize Camellia-flowered. This is perhaps the finest Balsam in cultivation, being a specialty with Mr. Benary, the famous seed grower of Germany. It is known as Camellia-flow'd because the flrs. are not unlike Camellias in general form and appearance. Plants grow 2 feet high, branch symmetrically, and become little trees covered with elegant bloom. They are of easiest culture and are successfully grown, even under unfavorable conditions. Their beauty, attractiveness, free and continuous blooming and easy culture commend them to every gardener, and they well deserve their popularity. We can supply the following colors: White, Crimson, Lilac, Scarlet Spotted, Violet Spotted, Salmon Rose, Separate or Mixed. 35 s. 5 cts.

Dwarf or Miniature. Plants grow a foot high, branch and bear bright semi-double flrs. in abundance, desirable for beds and borders, but especially for pots, being more dwarf and convenient for that purpose. Splendid mixture of fine colors 35 s. 5c.

Mette's Royal, 3 ft. These are very large-flow'd and extra double, the plants branching and bearing freely showy flrs. throughout the season. Glorious in beds in Summer and pots in Winter.

The King, vivid scarlet, showy, rich, effective.

The Queen, lovely satin rose, rare, charming.

The Emperor, blue, exquisitely marbled white.

The Princess, pure white, very large and fine.

The Prince, yellow, a rare shade; very beautiful. Separate or Mixed packets, 35 s. 5 cts.

New Flowering Bush. These grow 1 ft high and bear their flrs. on spikes above the foliage. They are desirable for beds and are also showy as pot plants. The flrs. are double and the spikes have buds in various stages of development which continue blooming for some time as they open in succession. This new Balsam will be more popular when its merits become better known. It deserves a trial. Colors: White, Rose, Red, Separate or Mixed. 30 s. 5 cts.

BARTONIA Aurea, ha, 2 ft. Large, showy golden flrs; fine, likes sun and sandy soil. 500 seeds.

Bellis Monstrosa

BELLIS PERENNIS, English Daisy, hp, 6 in. Beautiful hardy ever-blooming plants for summer beds north and winter beds south. The flrs are like small double Asters of many rich colors, and if alternated with Pansies, the effect is charming. The plants are easily grown from seeds. Set 6 in. apart.

Monstrosa. Extra double flrs of robust habit; remarkably fine; largest and best quality; unsurpassed. Red, White, Rose; separate or mixed. 150 s.

Hufeld's Super-Giant, Le Grand Fuselier. This is the largest English Daisy in existence. The enormous full-double flrs give rather the idea of a finely-formed double Aster than that of an English Daisy. This race is unsurpassed in regard to size and the perfect form of the absolutely double flrs. We supply seeds direct from Hufeld. Rose, White or Mixed.

Hufeld's Giant Chevreuse. New Italian Daisy, bearing bright red flrs of enormous size.

Hufeld's Glory of Frankfort. The only dark red Daisy; flrs quilled; makes a charming border.

Pomponette. Small double cushion-like flrs in various shades of pink and rose.

Tubulosa, fl. pl. **Kelway's Quilled**. A new race of large double flrs; many choice colors mixed. 100 s.

Ranunculus-Flow'd. Double, broad white petals. 150 s.

Stricta, fl. pl. Upright; robust and hardy; lovely double pure white flrs in profusion; extra choice. 100 s.

Monterosa, 6 in. Huge double quilled flrs; rich rose; new and beautiful; likes loamy soil.

BIDENS Dahliaoides, hp, 2 ft. Compact, free and long-flowering; flrs of various colors. 60 s.

Carnation, New Enfant de Nice

CARNATION. Years ago the Carnation was considered a perennial suitable only for greenhouse culture, but the hybrids developed since then have proven not only hardy in the garden but if started early will bloom freely first season. The so-called Margaret race of Carnations was the first of these, seedling plants not only blooming in six months but producing elegant large double flrs. in rich and varied colors; showy in beds and fine for cutting. They also do well in greenhouse or conservatory, grown in pots. A later race known as Chabaud Carnation is thought by some to be preferable, the plants being more vigorous, the flrs. larger, more varied in color, and the bloom more free and continuous. The plants are hardy in beds and when grown in pots are fine for the window.

Oenothera Evening Primrose

SHIRLEY POPPY

PAPAVER. These are old fashioned flrs, but how showy and beautiful they are! Once in the garden they mostly take care of themselves. The large ones are as handsome as Paeonies, and quite as showy and pleasing, while the single flrs exhibit a wonderful variety of shades and variegations, and are always admired. In garden beds and borders they are truly gorgeous, and a few seeds scattered about the vegetable beds make bright and beautiful the vegetable garden without detriment to the growing plants. Poppies should adorn every home and it pays to use only the improved varieties, such as we offer. The seeds may be sown either in Fall or early Spring. Do not let the plants crowd if you would have the best results.

Carnation-Flowered. Splendid dwarf plant, full-double flrs, fine stems. A glorious mixture of pink, chamois, salmon-rose, white and scarlet colors.

Double Fringed, ha, 3 ft. These are the richest and most showy of all Poppies, and should be found in every garden. The flowers are large feather-balls and make a glorious display. Colors: White, White striped red, Salmon-rose, Pink, Scarlet, separate or mixed. 2000 seeds.

Phlox Drummondii New Giant Perfection

PHLOX Drummondii, ha. This is one of our best annual flowers. At the North plants should be started in beds or boxes and transplanted, but in the South the seeds may be sown in the Fall where plants are to bloom. They mostly re-seed, and cover the ground with volunteer plants.

They like rather sandy, rich soil, and will grow in any garden. Seedlings begin to bloom when small and continue throughout the season. The bright flowers in many colors and variegations appear in big broad clusters. A carpet bed of the plants in special colors makes a glorious display. We offer choice new-crop seeds of the finest races, and can supply the colors separately or all in special mixture. They are hardy annuals, can be sown early.

Cuspidata, 1 ft. Starry sorts in mixture, showy. 100 s.

Fimbriata, 1 ft. Beautifully fringed, fine mixed. 100 s.

Portulaca Double

PORTULACA, **Rose Moss**, ha, 6 in. These are among the most beautiful and free-blooming of our hardy annuals. The plants are low, spreading, and the seedlings begin to bloom when small and increase in size and beauty with age. The single flrs are cup-shaped, and the double appear like little double roses. In a bed the display is wonderfully attractive throughout the Summer. The plants like sandy soil and a sunny exposure, grow and bloom freely, and are never troubled with diseases or pests. They will endure more hot sun and drought than almost any other flower.

Double-flowered, **Benary's Prize Strain**. Orange, Rose, Purple, Salmon, Striped, White. 300 s. mx 500 s. 5c; 1-32 oz. 40c.

Large-flowered Single, many fine colors in mixture. 1000 s 5 cts, 1-16 oz. 15 cts.

PETUNIA

The flower which stands pre-eminent as a hardy beautiful all-purpose gem is the Petunia. The plants are readily started from seeds, soon come into bloom, becoming a glowing mass of exquisite, showy, and deliciously fragrant flrs, and remaining so throughout the season if not allowed to exhaust themselves by seeding. The plants will endure more neglect, suffer less from either wet or dry weather, and prove decorative to a degree surpassing that of any other flr. Then, too, when once given a garden bed it will provide an abundance of plants every spring from self-sown seeds. Still more, if plants are cut back and potted in autumn, they will continue to bloom in a sunny window during winter.

HYBRIDA, SPREADING—1 ft.

ROSE GEM. Winner in 1936 Selections. Beautiful deep, rich rose flrs in profusion.

MINIATURE, 8 in. A fine novelty; each plant becomes a globe of small flrs in many fine colors.

Note: Seeds of Double and Large-flow'd Petunias require to be sown with special care, and those who do not have the patience to sow such seeds should get the small single-flow'd compact varieties. These Double Petunias are all produced by careful hand fecundation, and it is criminal to get them and plant them in a box or bed as you would Phlox or Zinnias.

MARTHA WASHINGTON, 9 in. Outstanding recent introduction. Bluish pink deepening to dark violet throat. Very ruffled and profuse.

GIANT FLOWERED SINGLE

These are very much larger than the common hybrid Petunias, are more vigorous in growth and are spreading. While the flrs are fragrant and much admired, they are not freely produced and the plants are not desirable for showy beds. However, the flrs are so attractive that they are indispensable with all lovers of Petunias. We offer seeds of the largest and most beautiful of the named sorts. 75 seeds 5c.

BURGUNDY, (New) Popular, rich wine red with lovely contrasting white throat.

ELK'S PRIDE, largest, darkest, best velvety purple.

BEAUTIFUL ORNAMENTAL VINES

Beds of flowers tastefully disposed give brightness and beauty to a place, but it is the climbers that afford coziness and special charm to a home. They beautify unsightly spots; they break up the monotony of the grounds; they supply, like Jonah's gourd, quick shade from burning sun. A good variety of these plants should be found at every home. They are indispensable in giving a homey appearance, and imparting cheer and comfort and contentment to the inmates. The plants are readily started from seeds, and easily transplanted to where you wish them to grow.

BIENNIALS AND PERENNIALS

These are valuable subjects of the flower garden, as most of them are not only showy and beautiful when in bloom, but will do service year after year for a long period, enduring cold, excessive rain and drouth, regardless of neglect and improper attention. They are easily grown from seeds, except a few which are tardy and will lie dormant in the ground for several months, or a year or two, before germinating. All are readily transplanted, and will generally thrive in the soil and exposure of an ordinary garden. When you make out your order, do not forget to select a few perennials. Once started, they will afford you as much satisfaction and pleasure as anything that you can grow. Directions for making outdoor beds and sowing seeds are sent with each package.

THE HERB GARDEN

Grandmother's garden with its delicious and fascinating odors and delicate unassuming blossoms with its valuable contributions to the needs of the ills of the family and to the delectable addition; in flavor and attractiveness of the daily menu; having been almost forgotten, is again coming into popularity. Today, no garden should be complete without a spot set aside for both the annual and perennial herbs. Only a few perennial plants of a kind are necessary. The annuals should be placed nearby, but in a different bed. Room should be left for easy access in cultivating and gathering.

Many and varied are the uses of herbs: the tastes of the family may be educated into liking the delightful variations in soups, tomato dishes, sandwiches, meats and summer drinks; the appetite may be stimulated by the artistic touch given in the use of sprays of parsley and asparagus, the flowers of nasturtiums and borage and other ingenuous arrangements. See Ambrosia, Chervil, Chives, Cress, Germander, Nasturtium, Parsley, Rhubarb and Sweet Woodruff in body of Catalogue.

The following listed herbs are easily grown from seed, require the minimum of care and comprise the most useful in cultivation: * indicates annuals, § biennials, ‡ perennial.

‡**SANGELICA** (*Archangelica*) 5 ft. Large-leaved, umbels of small white flrs; roots used as tonic.

Water Garden and Rock Garden Notes

The combination of a pool and rock garden is a delight in contemplation and a joy complete in reality. Either or both lend themselves to much variety in plan and choice of plants and, therefore, encourage ingenuity and originality in the gardener. These gardens need not be expensive. Those living in the country have the advantage, often, of a stream that may be utilized by backing up the water into a quiet nook and there making a beauty spot. A little labor in preparation of pool or rock garden, or both, and a choice of seeds, which may be secured for 5 cents per packet, together with love, time and patience, and one soon has a spot of loveliness, the attraction for both the family and friends.

We list a fine assortment of aquatics upon page 73. Upon this same page also is a splendid collection of Ornamental Grasses, a number of which will lend background and add beauty to this type of garden. One portion of your Rock Garden may be set aside for many of the culinary and medicinal garden herbs as listed upon page 71. These will not only add to the attractive appearance of your garden, but will be of practical value.

Below are listed a group of Alpine annuals and perennials which may be found in the body of the catalogue. All seeds are 5 cents per packet. Choose yours.

THE FINEST TREES AND SHRUBS

We offer new seeds of all of the following Trees and Shrubs, but wish to caution you that many kinds of Tree and Shrub seeds are tardy in starting. Some are nuts and need to be filed before planting; others have impervious covering which retards germination. All should be sown in a retired bed which will not be disturbed for two or three years. Some will start in a reasonable time, and these can be removed. Germination, however, is variable and always more or less tardy.

THE MAGNIFICENT LILY OF THE NILE NELUMBium SPECIOSUM

Nelumbium Speciosum

to being grown in large tubs, and create quite a sensation when grown in this way.

Try this rare and beautiful Lotus from Egypt and delight your neighbors and friends with something lovely and distinctly different. We offer guaranteed, healthy tubers \$1.25 each. Seeds 5c per packet.

So exquisitely beautiful was our Lotus pond this season that many unsolicited write-ups and numberless visitors and friends honored us with much attention and praise. Early in the Spring the mirrored surface of the lake became a swaying sea of rich green leaves, which lifted their upturned faces to the sun; and soon, tight buds pushed their way above the level of the leaves to burst forth in gorgeous bloom. In a short time the pond was filled with these lovely blossoms, which resemble tremendous pink and white tulips with hearts of gold. Their magnificent beauty holds an admirer spellbound, and every true flower-lover should grow one.

Where a natural pool is available, the tubers will grow and multiply rapidly. They are also well adapted

IMPROVED PEARL TUBEROSE

We offer fine bulbs of this elegant flower. The stems grow two feet high, terminating in a compact spike of waxy, double, richly-scented creamy-white flowers. Showy in beds and fine for cutting. Set in rich, sunny beds in May, the blooms appear in Autumn. If wanted earlier, start in pots and transplant.

Double Pearl—6 for 30c; 12 for 50c.

ACHIMENE

**"MAGIC FLOWER"
RARE AND BEAUTIFUL**

Special attention is called to the rare and beautiful bulbous plant producing freely the lovely showy flowers as represented in the engraving. Found in Mexico and known in Botany as *Achimene Grandiflora*. It belongs to the Gesneraceae, and is a near relative to *Gesneria* and *Gloxinia*. The plants are spreading, grow 8 in. high, and develop the flowers in graceful profusion all Summer. The purple flowering bulbs are worm-like, the white and blue are more rounded. They thrive in partial shade and keep well over winter when taken up and kept in a dry place free from freezing. These delightfully attractive, easily grown plants are a source of much pleasure in porch boxes or pots for decorating the "leisure" sitting room. The foliage is rich green and attractive. We offer the bulbs in purple, blue and pink.

Purple King, rich deep purple. 10c each, 3 for 25c.

Magnifica, violet blue, extra choice. 10c each, 3 for 25c.

Pink Beauty, delicate pink, exquisite. 10c each, 3 for 25c.

ZEPHYRANTHES, Zephyr Flower or Fairy Lily. Small bulbs producing low plants with grassy foliage. Will grow and do well in beds or pots. Bloom in Spring and Summer. In the South they often bloom several times during a season; farther North only one time. Very lovely.

Candida, glossy white flowers. **Rosea**, large rose colored. 10c each. \$1.00 per dozen.

OXALIS BULBS. For a choice border or hanging basket, a planting of Oxalis will give pleasure and satisfaction. The plants bear a mass of pretty clover-shaped foliage and a constant supply of small attractive flowers. We offer three colors: **Deppei White**, **Shamrock Pink**, **Losiandra Rose**. 6 for 15c; 12 for 25c; 100 for \$1.65.

-Hemerocallis-

-Day Lily-

oo

In the words of Mr. Betscher, (famous hybridist) "The Perennial Supreme." The plants possess so many commendable qualities that they are growing constantly in popular favor. Perfectly hardy and robust in growth, when once established, little care is required and a lavish display of gorgeous blooms will result. We offer the following choice varieties at - - - 25c each; 6 for \$1.25.

Dr. Regel. 1½ ft. Low growing, early, fragrant, full flowering, pure orange yellow. Plant in foreground.

Flava. 3 ft. "The Lemon Lily." Early blooming, beautiful clear lemon yellow.

SEEDS. Fresh seeds in the following colors: Red, Rose, Yellow, Orange, White, separate or mixed. Packet 5¢.

CANNAS — STANDARD AND CHOICE

Cannas fill a distinct place in the garden. The foliage is beautiful and luxuriant, the bright flowers in many choice varieties give beauty and color. They are ideal for background, to fill in corners or shelter old walls or unsightly fences; or they make an attractive and showy bed alone, if planted all of one color or in harmonious contrast. We offer the finest varieties.

We take pleasure in guaranteeing good strong live plump roots, sure to grow, sure to please. We are offering this selected eight which will give a wide range of colors and should furnish sufficient choice for the most fastidious gardener. Good roots 15c each, 2 for 25c, 6 for 55c, 25 for \$1.65 prepaid. 100 for \$4.75 shipped express collect.

Cheerfulness

APRICOT, 4'. Vivid rosy tangerine flowers, magnificent green foliage; very choice.

CHEERFULNESS, 5'. Flashing and attractive bright orange bordered lemon yellow. Handsome luxuriant green foliage. Fine specimen.

EUREKA, 4'. As the name implies, the best White Canna in cultivation. Strong grower; handsome green foliage. A bedding variety which has few equals.

KING HUMBERT, 4'. This is the grandest Canna ever offered. The large heart-shaped leaves are purple-madder brown over bronze. The plants are covered with immense heads of orchid-like velvety orange-scarlet flowers, rose-tinted and margined at the base; a combination of leaf and blossom of incomparable beauty. A must-have.

ROSEA GIGANTEA, 4'. Enormous trusses of superb, rose pink flowers borne in profusion. The best pink Canna without exception. Showy green foliage.

THE PRESIDENT, 3'. This Canna is superior to any other red variety in the quality and quantity of bloom. Color rich glowing scarlet. The immense firm flowers are produced on strong, erect stems well above the large leaves of rich green.

WYOMING, 5'. True orchid-flowering variety. Large orange flowers, purple foliage.

YELLOW KING HUMBERT, 4'. Like King Humbert in habit of growth and flowering. Marvelous flowers of great size and beauty, golden-yellow blotched red.

CITY OF PORTLAND, 3½' One of the best pinks, beautiful deep rose-pink trusses and fine green foliage.

GLADIATOR. An outstanding variety with the dark green foliage and flowers of deep yellow, heavily dotted with red. Resembles a tiger lily.

TWO EASILY-GROWN CLIMBERS

BOUSSINGAULTIA BASELOIDES, Madeira Vine. A very desirable, rapid-growing vine with red-tinged stems and shining green foliage. Deliciously scented tiny white flowers in late Summer and Fall. Hardy with protection. Roots 10c each, 3 for 25c.

DIOSCOREA BATATAS, Cinnamon Vine. Attractive bright green foliage and small, whitish, fragrant flowers. Very hardy. Bulblets 3 for 5c; roots 10c each; 3 for 25c.

INDEX AND GERMINATION TABLE

WHEN sowing seeds it is always best to divide the packets and sow at different times. Note the time and give good care until the plants have had time to appear. Figures here indicate pages, and letters indicate, as per key, the time needed for germination. Do not condemn seeds until you have given them at least two or three trials. Those marked z will often lie dormant for a year or more. Seeds of Trees and Shrubs should be sown in a retired bed which will not be disturbed for two or three years. Some will start in a reasonable time and can be removed. Germination, however, is variable and more or less tardy.

PARK'S SELECT GLADIOLUS BULBS

We offer a choice selection of the finest named Gladiolus; large, clean, healthy bulbs, free from insects and disease, sure to bloom and guaranteed to give satisfaction. All No. 1 bulbs—1½" and up.

PICARDY

PICARDY. The Gladiolus about which everything wonderful has been said and all is true. It is unquestionably the most outstanding gladiolus. A favorite with home growers and for commercial use. Tall robust growth, clean foliage and exceptionally large ruffled florets of softest shrimp pink with blotch of light flesh pink. Delights every beholder. Breath-taking in loveliness. 6 for 25c; 12 for 45c; 100 for \$3.25.

We pay all postage and warrant the safe arrival of the bulbs. When received, plant them five inches deep in a sunny bed of rich, porous garden soil and mulch the bed with well decayed stable litter; this will promote a vigorous growth and bloom and keep the soil moist during a moderate drouth. Cultivate often, especially after each rain. Choose yours.

Group I—Extra Special

8c Each; 6 for 40c; 12 for 70c; 100 for \$4.50

ALBATROSS. Enormous white flowers on tall strong spikes. An excellent pure white. 8c.

BAGDAD. Beautiful, large, open flowers of smoky old rose color; extra tall stems. New, fine, and outstanding.

COMMANDER KOEHL. Gorgeous clear dark red without markings. Long spikes of huge, 5"-6" heavy textured flowers. 8c.

DEBONAIR. Regarded as superior even to Picardy. The lovely La France pink flowers, shading to shrimp pink with creamy blotched throat, are borne on very tall straight stems. A perfect joy. 8c.

DR. MOODY. Early, choice lavender, penciled in darker shade. Fine with Duna. 8c.

DUNA. Beautiful, clear, distinctive new shade known as safrano; charming softest buff-pink shading to pale yellow at base of lip petals. Stands hot weather particularly well. 8c.

DREAM OF BEAUTY. Strong growing plant with extra large, striking rose-red flowers well placed on tall stems. 8c.

MINUET. First among the Lavenders. A perfect spike with large orchid-lavender flowers, seven open at once. Exceedingly lovely. A companion par excellent with Picardy. 8c.

PELEGRINA. Rich, intense deep violet-blue. An unusual color in gladiolus. In demand. 8c.

WASAGA. Exceptionally beautiful ruffled buff wide open blooms. One of the loveliest varieties in existence. 8c.

Our Country's Colors

J. S. BACH. Early. New. Best large red to date. Tall stems. Large, well placed, gorgeous florets. A beauty. 20c each; 3 for 50c; 12 for \$1.75.

MAID OF ORLEANS. Unusually fine keeper. The tall straight stems bear beautiful, large, milky white florets with blended cream throat. Often 10 open at one time. 12c each; 3 for 30c; 12 for \$1.00.

VEILCHENBLAU. The admiration of all who see the large clear deep blue flowers. 10c each; 3 for 20c; 12 for 65c.

My Picardy was a dream and I want more of them next year.
June, 1938. Mrs. Dilly Broyles, Anderson Co., Texas.

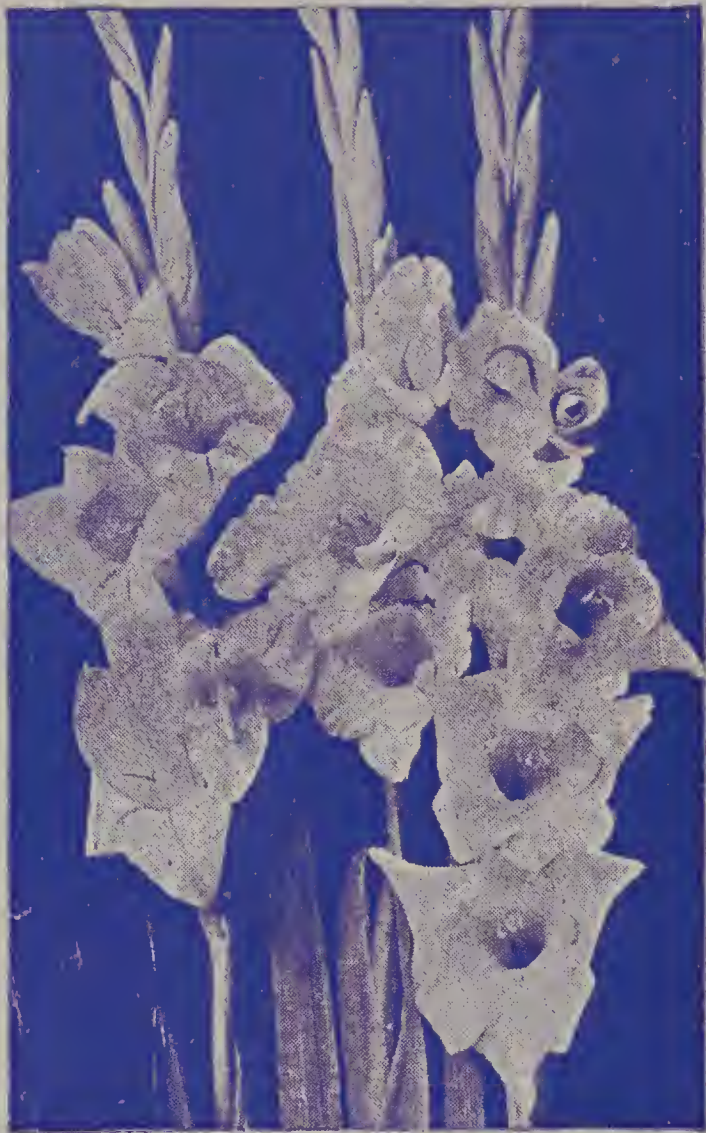

The gladiolus bulbs purchased from you were exceptionally fine.
July 3, 1938.

Mrs. G. D. Steele, San Joaquin Co., Calif.
